Riot Extinguisher

- Specifically designed and developed to release a tight coherent stream pattern directed at the attacker limiting the contamination of the immediate surroundings.
- Has 15% Oleoresin Capsicum with a spice blend mix
- OC does not vaporize and is trapped in the liquid of stream with non-flammable propellant system. The Oleoresin Capsicum is broken down into micron size as its being released, which causes immediate mucous membranes inflammation on contact.
- Safety Nozzle - comes with a safety Pin which prevents accidental discharge.
- Direct stream of up to 12 meters
